

KIBS Newsletter

Local roots, global understanding

Dear parents,

What a year - with global repercussions that have never been seen before! This situation has presented us all with great challenges but we have used the impact of the pandemic, both in the nursery and in the schools, to try out and develop new ways of learning. Thanks to our digital equipment and media concept, we have been able to keep in good contact with our children and pupils and continue with the learning material. Many thanks to you for your patience, trust and support! These experiences and the promising results let us look positively into the future. We will incorporate these new findings into our pedagogical concept for the next school year and thus enrich learning with further possibilities. Almost incidentally, we have received three awards this year: we are Smart School 2020, "School without Racism" and we have received the school award "One World for All" 2020 for our primary school. This makes us all very proud and we look forward to the next steps together with you and your children!

We wish you and your families a peaceful and reflective Christmas, take time to rest and recover. Stay healthy and see you soon in the new year!

Herzlichst

KIBS-Team

Parent Conversation Day

We have reorganised our parent conversations to try something new - we will invite you! Stay tuned to get more information in January.

Christmas Jumper Day

We collected 333,05 € for „Save the children“! Many thanks!

Important Dates:

School Reports - 29.01.2021 and then report holidays
10th February - Parent Conversations - schools close at 1pm

Primary School

Dear parents,

We have an eventful (school) year behind us and you have given us excellent support, especially during the distance learning phase of this school year! For that, we thank you very much. We are proud of how we have been able to maintain learning for your children. Despite Corona, we have achieved a lot. We are constantly evolving to provide the best possible learning experiences for your children - let's look back on this year together with a few pictures:

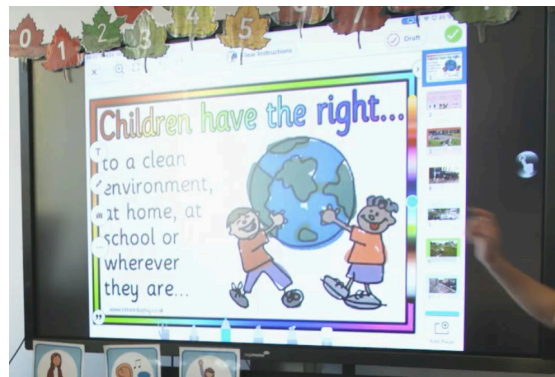

Anti-Bullying Week, Recycling Week, World-Kindness Day und Reading Fair are just a few of the events that have already happened this year. In the new year, we are looking forward to new projects we have never tried before!

Our lessons were never boring - thanks also to Lego Coding and outdoor learning!

The Year 1 students learned about children's rights, the Year 2 students developed a prototype app, the Year 3 students built insect hotels and the Year 4 students maintain and feed their worm farm with our kitchen waste -

the result: a school award from the "One World for All" school competition! We are very proud of our teachers and pupils!

This school year, our primary classes are looking at the 17 sustainability goals in detail - each class has chosen their goal for the digital school assemblies - on Seesaw we will share these with you, enjoy watching the videos!
